Subject: Hydraulically Applied Mulch

To Whom It May Concern:

Recently the Mississippi Department of Transportation Construction Division developed a new specification for hydraulically applied mulch (attached). We now have a category on our Approved Products List for hydraulically applied mulch and Earthguard Fiber Matrix has been added to the list.

This approval will continue as long as the materials meet current specifications and perform satisfactorily in the field. If the manufacturer alters the materials in any way the Department must be notified and the materials re-evaluated. You should also notify this office within 30 days of any change of address. If you fail to comply with this policy, the products may be removed from the Approved Products List.

If I can be of further service feel free to contact me at (601) 359-1773.

Sincerely,

A handwritten signature in black ink, appearing to read "Alan Kegley".
